

Woodland Schools - Nursery

Christmas- 13.12.16

Key Value: Joy

The children walked confidently to camp and knew how to get to the new gate. They were quick to use the rope to help them get up the slope to camp. Catherine – I heard a sea gull. The children liked the drops of rain on the gate. Isla – the water is from the rain. They watched what happened when we touched the rain drops. 'The rain drop gets bigger then it drops.'

Tom - look at all the leaves it looks like a ditch. The children were really excited to go for a walk further into the woods. They walked carefully and helped each other over the tricky bits. Louise - listen to the sound (the leaves under their feet). We stopped and listened around us. They sat really quietly. Isla - I can hear sticks snapping. Paisley - I can hear the trees. They noticed the rabbit burrows and knew what lived there.

Isla - I'm the king of the Castle! She helped the others onto her tree stump and stored their sticks safely. They spontaneously used it as a stage and started singing Christmas songs and dancing. 'We are flapping our leaves!'

The nursery children are becoming much more capable when they climb banks. They move around the area quicker and are more confident to have a go on their own. They are also quick to help their friends when needed.

Louise - I found one of these in camp. (a cinnamon stick) She knew that it smelt so put it to her nose and passed it to her friends to have a go.
