

## Woodland Schools - nursery

### Willow planting and fence building- 29.11.16

#### Key Value: responsibility

On the way up to camp we talked about the seasons and I asked them what season it was. Tom – You get snow in winter. Why isn't there any ice here? Thomas – It's winter now. Isla – Leaves fall in Autumn. They are all on the floor now. Catherine – There aren't any leaves on that tree. Grace – look there is moss everywhere. She pointed to different areas of the wall. Cody – look at the tractor marks. Where is the tractor? I think it is in the field.

The children were very excited at the idea of making a fence. We talked about how to carry the branches safely. They worked fantastically together to move sticks and talked to each other. Excellent team work.

They found this frost in the shade. They loved the feel of it.

Good threading skills when making the bird feeders. They talked about why we needed to look after the birds in the winter.

Cody lay down in the leaves and made a leaf angel. The other children copied and they all had great fun making the leaf angels.
