

Woodland Schools - Nursery
Molly Mouse's Christmas- 06.12.16
Key Value: Friendship

On the way up to camp the children started to spontaneously talk about winter. Isla – in the winter it is really cold. Cody – in autumn the leaves fall off. In winter they are all off on the floor. Tom – It's not Christmas but Christmas is in winter. Grace – the trees have no leaves.

The children enjoyed the story and talked about their trees and decorations. The children were keen to make decorations. Grace decided to make a model. I'm making a person. I need some toes.

When they arrived at the camp they immediately started looking for sticks to add to the fence. Isla - I need some help please. They were quick to help each other and talk about what they were doing. Good, safe carrying.

Good hand eye coordination when they had a go at hammering. They watched carefully and were very focussed.

The children were delighted with their decorations. They thought carefully about what they threaded on and were excited to hang them up.

An excellent game of icecream where the children organised themselves quickly and followed the rules well. All the children were happy to go back to the beginning when they were out.

The children were interested in the different things I had to make Christmas decorations. Louise was quick to notice that the cinnamon had a strong smell. She liked the smell and was keen for the others to see what they thought
